

Church Safety Protecting Your Congregation Seminar

The Church Safety Protecting Your Congregation Seminar provides a foundation of safety techniques, precautions, situational awareness, and assessments needed to help protect your church and congregation. The seminar includes church leadership, staff and members, as you learn to create safety and contingency plans, emergency procedures and how to utilize the skills and knowledge of the members of your church to aid in the safety of the congregation.

Proactively train to identify, understand, and mitigate current day threats your church may face. Plan now to help prevent an incident targeting your church, and have a plan in those instances, where there may be a threat to your congregation and facilities.

We give because we have been given much.
