Fraud and Scam Awareness Seminar

The Fraud & Scam Awareness Seminar is designed to educate individuals on recognizing, avoiding, and responding to common scams and fraudulent schemes. This interactive session covers topics such as identity theft, online scams, phone and email fraud, financial scams, and social engineering tactics.

Participants will learn practical strategies to protect their personal information, detect red flags, and take action if they become a target. Led by experts in security and fraud prevention, this seminar empowers attendees with the knowledge and confidence to safeguard themselves and their families against deception.
